

THE POSITION

Lambert is looking for an AS Production Manager to work in the Production Department to effectively manage the staff, workload, work areas and priorities within project engineering & all aspects of build within the AS Business Unit. Ensuring products are to schedule using the most efficient and effective method whilst still maintaining quality.

POSITION:
AS Production
Manager

DEPARTMENT:
Production

TYPE:
Full Time

LOCATION:
Lambert
Station Estate
Tadcaster
North Yorkshire
LS24 9SG
United Kingdom

RESPONSIBILITIES

- Ensure legislative compliance in environment, health, safety & welfare to protect our people & anyone visiting the department.
- Manage AS project engineering & mechatronic assembly.
- Continually innovate to ensure product & service always delivers value beyond our competition.
- Understand project schedules and prioritise assembly & installation accordingly.
- Through your personnel ensure all projects are monitored, delivered on-time, within budgets & to specification.
- Ensure efficient use of build space utilisation delivering the highest possible turnover per metre².
- Effective resource planning in line with strategic targets and order intake fluctuations.
- Match skill resource to specific project/task with a mix of mechatronic & semi-skilled build team members to ensure Lambert maintain competitiveness in the marketplace. Set and maintain the quality of output of the Innovations and applications teams through Lamberts Business Management Systems (BMS)

DESIRED SKILLS & EXPERIENCE

- Manage the Project Planning & AS Build Team resources (including people, facilities and tools)
- Ability to manage multiple shifting priorities, demands and timelines simultaneously within an engineering environment.
- Understanding of ISO9001, ISO14001, OHSAS18001 and ISO27001
- Understanding and awareness of engineering production throughput efficiencies
- Awareness of PUWER Regulations and risk assessments.
- 5S/6S experience
- Experience in line managing a large engineering team ensuring success to multiple deadlines
- Experience in engaging and motivating individuals and teams
- Facilities management/development

THE PERSON

- We are looking for someone who is HNC/Degree qualified in a relevant engineering discipline
- Lean skills/experience/Six Sigma
- Sound technical background with exposure to automation
- You will have well developed team leadership, strong communication, co-ordination and organisation skills
- Ability to interpret technical drawings and provide feedback
- IOSH or NEBOSH Qualification
- Developed IT skills – (MS Project and MS Office essential) and line management skills
