POSITION:
CNC/Centre Lathe
Machinist/Operator

DEPARTMENT:
Manufacturing

TYPE:
Full Time

LOCATION:
Lambert
Station Estate
Tadcaster
North Yorkshire
LS24 9SG
United Kingdom

Lambert is looking for a CNC/Centre Lathe Machinist/Operator to work in the manufacturing department.

THE POSITION

Reporting to the Manufacturing Manager, your role will be to follow drawings to produce correct components to the required standards in the most efficient and cost effective way within the Turning Department.

RESPONSIBILITIES

- Produce quality components by programming, setting & operating appropriate equipment
- Liaise with team leader to ensure most effective and efficient methods are used
- Ensure components are both dimensionally correct & the visually aesthetic quality of the finished component is in line with Lambert quality standards
- Solve production and manufacturing problems, referring up to Team Leader when necessary

DESIRED SKILLS & EXPERIENCE

- Experience of working in a manufacturing machine shop environment & programming, setting & operation of appropriate equipment within a turning department.

- Experience of working in a team in a manufacturing department or in a similar environment
- Experience of working with technical engineering drawings in a precision machine shop
- Experience of working to fine tolerances and with a wide range of engineering materials including carbon and stainless steels, aluminium etc
- Experience of consistently manufacturing 1 off bespoke components to new designs
- 5S change experience
- Experience of LEAN manufacturing techniques Experience of consistently programming & manufacturing 1off bespoke components to new designs
- Qualification in a relevant engineering discipline, eg Apprenticeship
- Operate a centre lathe (both CNC and conventional)
- Fanuc controls trained would be an advantage
- Use 4 jaw chucks
- Machine shaft work using steadies
- Machine eccentrics
- Various types of threading and screw cutting
- Crane Lifting Certificate

THE PERSON

We are looking for someone with a keen **eye for detail** and has the ability to identify **6S and LEAN opportunities**. This person will thrive on producing components **right first time** and to the highest of **standards**. We are also looking for someone who incorporates not only **Health & Safety**, but all of Lambert core **Values** in everything that they do.

If you would like further information or details of the full job description please contact HR. If you wish to apply please forward a copy of your CV together with a covering letter to hr@lamberteng.com no later than **Friday 10th February**.
