

## THE POSITION

Lambert is looking for an Applications Engineer to deliver a full technical, conceptual and costing service to Lambert.

## RESPONSIBILITIES

- Interpret the opportunity's sales strategy and develop appropriate technical solutions
- Conceptualise realistic and viable technical solutions
- Technically support Technical Sales Engineers
- Act as internal consultant to projects
- Develop required specifications for suppliers
- Generate representations of technical solutions
- Generate costings and estimates of technical solutions
- Technically and commercial evaluate change requests when Lambert has technical ownership over the solution
- Evaluate any engineering change requests when Lambert has technical ownership of the solution, supporting the project's dedicated Programme Manager. This evaluation will ensure that any changes are technically and commercially viable by delivering technical solutions and ensuring business resources are in place before delivering back to projects team.
- Work with all Lambert colleagues to ensure that our internal customer ethos is delivered and maintained through everything we do including right first time, on time and in full.
